# COME EXPLORE

## WHAT IS THE EXPERIMENTAL COLLEGE?

The Experimental College (ExCo) is an ASUW business run by full-time students offering a wide range of non-academic, not-for-credit classes.

Our classes are open to University of Washington students and the general public, and are taught by both passionate community members and students.

Classes take place on the University of Washington campus and around Seattle neighborhoods. We offer a new catalog of courses each quarter.

We were founded in 1968 by a group of University of Washington students seeking education in areas outside of the traditional university environment, and we remain committed to this goal today.

## DIRECTOR'S NOTE

Greetings!

Our office has worked hard over the past year to bring this catalog and service to you all. The instructors within these pages have worked for many years to reach a high quality of teaching and skill for your benefit. It has been a great pleasure interacting with this community, and we are positive that you will enjoy next year's staff.

Summer is a renewal period, where new ideas can come to seed. The classes you can find in this catalog can help you explore the world with a fresh mind. Join us and celebrate that.

Lauren Hill

ASUW Experimental College Director 2014-2015

### IN THIS CATALOG

Key:

A "One Night Wonder" is a course offered over only one class period.

"New" courses are courses the Experimental College is offering for the first time.

**Sec. 1**

**Sec. 2**

A "section" is a time that a course is offered. If a course has more than one section, it means the instructor offers the same material at different times—take your pick!

### THANK YOU

The Experimental College would like to thank the following people for our success: Our instructors; the ASUW Board of Directors; the Student Activities Office; our Advisors, Jennifer Pope and Rene Singleton; Maggie Keech, Kristi Walker and UW Publications; Rotary Offset Press; and the entire University of Washington student population who allow us to work on their behalf.

## ARTS & CRAFTS

### A BOOK IN A BOX

BONNIE THOMPSON-NORMAN

**Sec 1: Sat. 7/25-Sun. 7/26**

**10:00am-5:00pm**

Learn the basics of traditional bookbinding and box making as you create a hard cover, cloth bound book and a custom-made clamshell box. You will be introduced to the techniques and materials of the craft of bookbinding: papers and adhesives, folding and sewing a blank book, constructing a square back case binding, &c. The second day, step by step, you measure and construct a matching box in which to house the book. Taught by a full-time, professional bookbinder in a fully equipped studio where you have all you need to create professional looking books and boxes for your albums, journals, &c.

## ADOBE PHOTOSHOP FOR BEGINNERS

NILS OSMAR

**Sec 1: Fri. 7/17-7/31**

**7:00pm-9:00pm**

In this easy step-by-step class, aimed at total beginners, you'll learn how to use Photoshop to fix color problems in photos, fix exposure, remove dust and scratches, and more. Plus, copying and pasting; cropping; adding text; layers and channels; saving photos for your web page. The class is held in a regular classroom, not a computer lab; you can bring your laptop to work along, or just take notes. Handouts will recap all the steps. Whether your goal is to learn Photoshop just for fun, or to use at work, this class will help. More: <http://123classes.com/photoshop>.

### LETTERPRESS PRINTED ARTIST'S BOOKS

BONNIE THOMPSON-NORMAN

**Sec 1: Sat. 8/1-Sun. 8/2**

**10:00am-5:00pm**

Hand made, hand printed, books are alive & well...and amazingly easy to produce! Create a limited edition artist's book in this introduction to the traditional craft of letterpress printing. Together, participants create the text, set type by hand and print on original, old presses in an old-fashioned printing studio. Each class produces a unique project and participants get at least 5 copies. The studio, established in 1978, has hundreds of cases of type, several printing presses, paper cutter, board shear, &c. No experience necessary. Bring lunch. More info [www.thewindowpanepress.com](http://www.thewindowpanepress.com).

PAINTING FOR EVERYONE

### PAINTING FOR EVERYONE

GEOGETTA GANCARZ

**Sec 1: Weds. 7/8-8/12**

**6:30pm - 9:00pm**

Designed for the beginner and intermediate, this course will focus on the individuality of each student. Working directly from models, memory or imagination, students will be encouraged to explore color, form, space, composition and technique as a source of personal expression. Acrylic, oil paint and other media will be explored. There will be individual feedback to assist students in their vision. Instructor is a professional artist, director of ART-POLI and has exhibited work in the Metropolitan Museum of Art; Great class! Optional materials fee \$35; not included in the course fees.

### PAINTING PORTRAITS

ILANA ZWESCHI

**Sec 1: Sun. 8/9**

**10:00am-5:00pm**

In this fun and focused Seattle painting class, students will learn how to paint beautiful, recognizable and expressive portraits with oils. Beginners are welcome! We'll use water-miscible oils which clean up easily and have low fumes. We'll work from photos using grids so that drawing the portrait becomes a simple and easy process even for those with no experience. We'll then add color, learning how the face can hold yellows, peaches, and browns and a wide range of beautiful colors. You can bring your own materials or buy an inexpensive kit in class. ### PERFORMANCE ART: BODY ART, HAPPENINGS, AND SOCIAL PRACTICE

ALEX BERRY

**Sec 1: Weds. 7/8 - 8/19**

NEW

**6:00pm - 7:30pm**

Marina Abramović hiked across the Great Wall of China to break up with her partner. Lady Gaga spent 72 hours in a giant egg to prepare for a show. Emma Sulkowicz carried her mattress on Columbia University's campus every day to protest sexual assault. Performance art has been labeled the rawest form of visual art. This course is intro to using the human body, our actions/interactions, in alternative ways to discuss life and social issues. Students participate in creative (at times bizarre) assignments focusing on body, time, space, audience to develop concepts for their own live art pieces.

### THE OK CHORALE ELENA LOUISE RICHMOND

**Sec 1: Wed. 7/8 - 8/19**

**7:00pm-8:30pm**

The OK Chorale is a non-audition choir of folks who love to sing. We sing in 4-part harmony with experienced singers and uncertain beginners, music readers and non-readers. My years as a teacher have taught me that joy in singing trumps conventional performance standards. This is a choir in which people are not afraid to make mistakes. The rehearsals are fun and no one gets hurt. Just because your grade school music teacher told you to mouth the words is no reason not to sing out now. Summer quarter we sing on the ferry and do a concert in a park. One extra rehearsal and performance TBA.

## SELF IMPROVEMENT (cont.)

### QUIT OR GRIT?

SARAH CAMPBELL

Sec 1: Tues. 7/14

Sec 2: Tues. 7/21

Sec 3: Tues. 8/4

When to quit and when to "grit"? Answering this can feel impossible when you're facing self-doubt or an enticing opportunity to shift focus. This workshop will help you figure out whether to stick it out or say goodbye. We'll cover what's at stake in finishing, the guilt—and glory—associated with quitting, and stories of people with remarkable grit. Through discussion and a few simple exercises, this class offers a clearer way to decide whether you should quit or "grit" your situation, whether it's a major endeavor or a part-time passion.

### HOW SOCCER EXPLAINS THE WORLD

CURTIS REED

**NEW** Sec 1: Mon. & Weds. 7/6-7/22 7:00pm-8:00pm

Soccer is without question the world's game and increasingly becoming America's game. While big time soccer is relatively new in the United States the game has been at the forefront of the rest of the world for over a hundred years. Over that time it has found itself at the heart of social, political, and geographic questions that have profoundly shaped world history. What is the "Football War?" Is Turkey a part of Europe or Asia? In this course we seek to examine those type of questions while getting you to think about the sport in a new way. Bring your passion and be ready to learn!

### VOICEOVER 101: VOICE ACTING FOR GAMES, ANIMATION AND MORE

RICK MAY

Sec 1: Thurs. 7/16-8/13

7:00pm-9:00pm

Sec 2: Sat. 7/18-8/15

10:00am-12:00pm

Looking for voice acting classes in Seattle? Whether you're wanting to learn how to use your voice in games, animated cartoons, or commercials, or just doing some voice acting for fun, you've come to the right place. In voice acting, the actor's face never appears on screen, but he or she has the opportunity to create a character and make a connection with the audience using only vocals. Voice acting is fun, and a great way for actors to improve their general acting skills on and off the screen. See also: Beginning Acting, above. More info: <http://123classes.com/voiceover>.

## TECHNOLOGY (cont.)

### UNDERSTANDING AIRPLANES BERNARDO MALFITANO

**Sec 1: Weds. 7/8-8/4** **5:00pm-7:00pm**

Could a jetliner fly upside-down? Why do small airplanes use propellers while big airplanes use jet engines? Why are stealth airplanes flat with straight sharp edges? What are all the things that stick out of an airliner's wing? Why don't more airplanes use low-drag features like canards or thin glider-like wings? What about electric motors? Solar power? This course covers the basics of aerodynamics, engines, and structures, answering questions like these, going over various airplane design features, from bi-planes to jetliners, from bushplanes to fighter jets, historically and into the future.
